BACKGROUND

[DC Code § 4–752.02\(c\)](#) legislatively mandates that the ICH comment on the Mayor’s proposed budget for services within the Continuum of Care each year.

“The Mayor shall, upon release of the proposed annual budget each year, make available to all Interagency Council members the District’s proposed budget breakdown of each agency’s appropriations for services within the Continuum of Care. The Interagency Council shall give comments to the Mayor regarding the proposed budget.”

To comply with this requirement for the proposed Fiscal Year 2025 budget, the ICH Team scheduled six ICH Budget Engagement Sessions in April 2024. The goal was to create an opportunity for each District agency member to present the details of the Mayor’s Proposed Budget and for members representing the community to comment on the details presented.

The ICH Team accepted public comments in real-time at the virtual meetings or in writing via email until the Close of Business (5 pm) on Friday, 04/19. The table below provides an overview of the six (6) Budget Engagement Sessions.

COMMENTS RECEIVED BEFORE THE BUDGET RELEASE

When organizing the April Budget Engagement Sessions, the ICH Team accounted for constituent feedback as the FY25 budget has been top-of-mind for many ICH constituents since December 2023.

For example, although the legislation is specific to the “breakdown of agency appropriations for services within the continuum of care,” the ICH community requested a comprehensive presentation of each agency’s proposed appropriations to better understand the impetus for the cuts and ensure that the cuts do not disproportionately impact homeless services. See text box on Key Takeaways from ICH Comments Received Before the Release of the Mayor’s Proposed Budget below.

Except HSEMA, member agencies were diligent in providing the details of the proposed FY25 budget and comparing it to the approved FY24 budget, to highlight cuts and changes to the proposed appropriations.

Key Takeaways from ICH Comments Received Before the Release of the Mayor’s Proposed Budget

ICH constituents have been articulating their concerns regarding the FY25 Budget since December 2023. See [Comments Received Before the Budget Release](#) for details. Overall concerns are summarized as follows:

- Need to understand better budget pressures and efforts to raise revenues, including
 - the factors contributing to the fiscal constraints
 - the proportion of the cuts shouldered by homeless services
 - options for raising revenues

- Importance of transparency related to the following
 - Cuts to the FY24 budget and implications for FY25 budget
 - Impact of cuts on services provided and staffing providing the services
- Concern that homeless services will be shouldering a disproportionately more significant share of the cuts, which will ultimately:

 - Harm the most vulnerable District residents
